HELPING FINANCIAL ADVISORS **HELP THEIR CLIENTS.**

## CATHY DONADIO

### CASE MANAGER

Advisors enjoy working with Cathy Donadio as their case manager for life insurance and annuities because she centers herself around loyalty, family and honesty. What this means to you is she is “real” with everyone. Cathy worked for the past ten years for an IMO in Southern California as a Senior New Business Case Manager, processing life, long-term care and annuity applications for a diverse population of financial advisors. She is a skilled case manager with a strong background that has given her the essential knowledge to help clients accurately. The real benefit to you is working alongside a professional who has authentic relationships with clients and calmly serves advisors. Her peaceful demeanor can be a new way of life for the advisors she is assisting, which makes each case a new training experience. Cathy joined IPG in August 2016 after moving to Chandler, Arizona with her husband, John. They have two grown children, a daughter living and working in New York City and a son, recently married, living in Phoenix. Cathy and her husband enjoy going to movies, gardening, hiking, tennis, listening to music, reading, entertaining and being with their family and friends.
